

# TEXAS DEPARTMENT OF AGRICULTURE

## COMMISSIONER TODD STAPLES

### BROADBAND ACCESS SURVEY RESULTS

In light of the funding opportunities made available through the Broadband Technology Opportunities Program (BTOP) and the Broadband Initiatives Program (BIP), the Texas Department of Agriculture (TDA) is surveying local governments across the state to identify constituents and entities that do not currently have access to broadband Internet service.

The survey attempts to identify areas of the state which may have populations that are unserved or underserved; be classified as rural or remote areas; and may have critical facilities that do not have access to broadband service, as defined by the BTOP and the BIP. For more information about the classifications identified in the survey, please review the BTOP and BIP applications, accessible on the Broadband for All Texans page found at [www.TexasAgriculture.gov](http://www.TexasAgriculture.gov).

The survey results are intended to provide information to potential BTOP and BIP applicants by assisting in the identification of prospective project locations, and survey participants are aware that they may be contacted by potential BTOP and BIP applicants.

TDA does not guarantee the accuracy of the information provided in the survey.
